art new vision this formula shaped the avant garde with moving images abruptly expanding the boundaries of the visible world new printing techniques triggering a pictorial turn in graphic art and literature becoming almost inseparable from visual media we still regard the avant garde as heyday for modernism s obsession with the eye but what are the blind spots of this optocentrism focusing on the gestures of giving touching showing and

handcrafting this study examines key scenes of tactile interaction between subject and artifact hand movements manual maneuvers and manipulations challenge optics and expose the crises of a visually dominated perspective on the arts the readings of this book call for a revision of an optically obscured aesthetics and poetics to include haptic experience as an often overlooked but pivotal part of the making as well as the perception of literature and the arts

the relationship between literature and life can be construed as a counterpoint of fate and freewill rather than equating fate to the hand we are dealt which is reducible to the social or familial environments into which we are born this book explores the idea of fate through the books that shape our lives and under whose influence we write writing in this sense is seen as beyond its utility of making meaning it is a way of recovering agency in the face of overwhelming experiences in juxtaposing factuality and fiction the author makes a case for a radically empirical approach to human experience
