this study examines the critical challenges facing doctoral research in humanities and social
sciences within the indian academic landscape through comprehensive analysis of existing
literature and empirical evidence the research identifies three major concerns the prevalence of
descriptive research lacking theoretical depth the proliferation of predatory journal publications
and systemic barriers to publishing in reputable journals the findings reveal that 88 of journals in
the university grants commission s approved list were deemed predatory with india contributing
to 27 of global predatory journal publishers additionally the study highlights how institutional

pressures for publication quantity over quality combined with inadequate research training and limited resources compromise research integrity and societal impact the research concludes that systematic reforms in academic evaluation metrics enhanced research training and stronger quality control measures are essential to elevate the standard of doctoral research in india
